

Help Your Members Facilitate Healthy Choices

Your members can get questions answered by dental professionals. Our Ask-A-Dentist platform provides a venue for your members to contact dentists directly with their oral health-related questions. Early contact with dentists can help remove barriers to treatment and encourage prevention. These interactions can help reduce the occurrence and severity of oral health-related issues. Your members can get the answers they need from the professionals.

Ask A Dentist

ENCOURAGE PREVENTION, ADDRESS TREATMENT

It would be terrific if everyone was comfortable visiting the dentist at the first sign of trouble. The truth is that most of us wait to seek help until our oral health presents a problem. That's not because we're shy; we genuinely might not know if our symptoms are a problem or if the discomfort will correct itself.

Ask-A-Dentist will help your members prioritize their oral health by giving them viable options for the next step as well as genuine preventative guidance.

A PROFESSIONAL PLATFORM

The set up is easy. We'll install the Ask-A-Dentist platform on your organization's website and your members can then log in any time to ask real, accredited dental professionals for advice or resources.

Within 48 hours one of our participating dentists will send a response to your member with the opportunity for follow-up as well.

The image displays three views of the Ask-A-Dentist platform. The top view is a desktop browser window showing a website with a navigation menu (Home, Dental Cost Calculator, Best Dentist Finder, Ask a Dentist, Dental Tips & Prevention, Dental Store, Dental Deals, About) and a main content area titled 'Ask a Dentist'. A question is posted: 'What are dental sealants, who should get them, and how long do they last?' with a 'POST YOUR ANSWER' button. A sidebar lists 'Recent Topics' such as amalgam fillings, back teeth, Chinese herbs, and cosmetic dental care. A 'PLATINUM AWARD HEALTHCARE LEADERSHIP 2013' badge is visible in the top right corner.

The middle view is a desktop browser window showing a question: 'Need answers to questions about your oral health?' with a search bar and a 'SEARCH' button. Below the search bar, a question is listed: 'I have missing a front tooth. I need a implant, how much is going to cost?' with a 'FOLLOW UP' button. A sidebar lists 'Top Contributing Dentists' including Dr. Markichiba, Dr. Wilbur Pickering, and Dr. Carl Smith.

The bottom view is a tablet and smartphone displaying the same Ask-A-Dentist interface, demonstrating its mobile responsiveness. The tablet screen shows the question 'I have missing a front tooth...' and the smartphone screen shows the search bar and question list.

What Should Your Member Do When They Have A Dental Question?

They might not need to make an appointment. They can Ask-A-Dentist and find out.

Follow a conversation you are interested in

Your members can follow a question and get email updates when someone adds to the conversation.

Upvote the best answer

If there are multiple answers from multiple dentists then your members can vote for the best.

Allow your members to share

Post great answers to social media or simply send it to your email address and read it later.

The screenshot displays the 'Ask a Dentist' section of a website. At the top, there is a navigation bar with links for Home, Dental Cost Calculator, Best Dentist Finder, Ask a Dentist, Dental Tips & Prevention, Dental Store, Dental Deals, and About. A search bar is located in the top right corner. The main content area features a question from user 'Dddd97' dated January 27, 2014: 'What should I do about my hurting gums?'. Below the question is a text input field for responses and a 'POST REPLY' button. To the right, a 'Recent Topics' section lists various dental issues like amalgam fillings, buck teeth, Chinese herbs, etc. Below the question, two answers are shown. The first answer is from 'Dr. Mills' dated August 21, 2013, discussing traumatic injury to the gums. The second answer is from 'Dr. DDS' dated January 27, 2014, advising to book an appointment and use ibuprofen. Both answers include a disclaimer and social sharing options. At the bottom, a 'Recommended Products' section features three 'LoloZ' product packs (Berry, Orange, and Lemon) with their prices and promotional text. The footer contains contact information and social media icons.

Access a robust database of past answers

Your members can easily find answers to previously-asked questions in our topics section.

Customized ad space

You can place advertisements within the Ask-A-Dentist platform so users can learn more about your organization.
